

STIROKOL 2

Description

White adhesive for EPS and insulation boards

Stirokol 2 White is a white adhesive used for bonding EPS (expanded polystyrene) and insulation boards. It is suitable for use in both interior and exterior applications. The adhesive is easy to apply and provides a strong, durable bond. It is also resistant to weathering and aging. The product is available in 25kg bags.

Application instructions: Apply a thin layer of adhesive to the surface of the substrate and the back of the insulation board. Press the board firmly against the substrate and hold it in place for a few minutes. The adhesive will cure and form a strong bond.

Application instructions: Apply a thin layer of adhesive to the surface of the substrate and the back of the insulation board. Press the board firmly against the substrate and hold it in place for a few minutes. The adhesive will cure and form a strong bond.
