

# STIROKOL 2

## Description

White adhesive for EPS and insulation boards

Stirokol 2 White is a white adhesive used for bonding EPS (expanded polystyrene) and insulation boards. It is suitable for use in both interior and exterior applications. The adhesive is applied to the surface of the substrate and the insulation board, and then pressed together. It provides a strong, durable bond and is resistant to weathering and moisture. The adhesive is easy to use and does not require special tools or equipment. It is available in 25kg bags.

Application instructions: Clean the surface of the substrate and the insulation board. Apply a thin layer of adhesive to both surfaces. Press the insulation board onto the substrate and hold it in place for a few minutes. The adhesive will cure and form a strong bond.

Application instructions: Clean the surface of the substrate and the insulation board. Apply a thin layer of adhesive to both surfaces. Press the insulation board onto the substrate and hold it in place for a few minutes. The adhesive will cure and form a strong bond.
