

P-09 CW CEILING PROFILE

Description

P-09 CW CEILING PROFILE

P-09 is a C-wall standard ceiling profile also called CW-100. The C-wall profile is fastened to the wall all the way around according to the desired installation height. When creating a ceiling suspension, ceiling cladding, or attic conversion with Pofix CD ceiling profiles, pay attention to the corresponding detailed drawing, to increase stability on ceilings, planking across the profiles (carrying profile) is absolutely necessary. Unprotected outdoor storage can lead to so-called moisture White rust appears, which does not affect
